

Scratch Art

Materials: Paper, Coloring supplies (crayons) OR Acrylic Paint

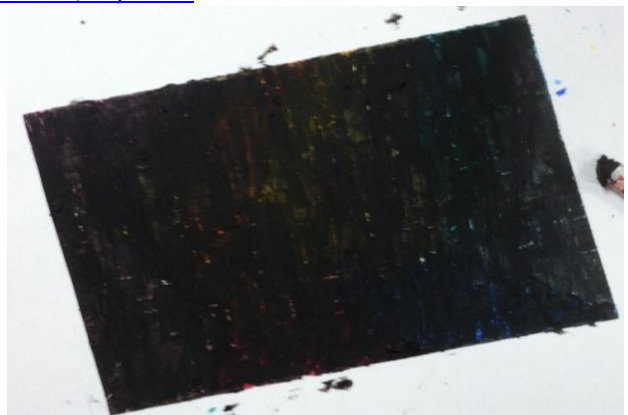

Directions:

1. Color a paper COMPLETELY with crayons. Do not draw, just make big chunks of colors.

2. Color over your beautiful colors with black crayon! If you have paint you could use this other method which comes out a little nicer. BUT YOU CAN JUST USE CRAYON TOO.

To use paint watch: <https://www.youtube.com/watch?v=PQ6urjoVZkY>

3. Make a sketch of your design.
4. Get a paper clip, a toothpick
Scratch a design into your black paper.
I suggest making a draft of what you want to make. Anything that gets drawn will be colored. Leave some spaces black.
